ETNA FARMERS' AND MECHANICS' CLUB
SECOND ANNUAL FAIR.

The Etna Farmers' and Mechanics' Club held their second annual Fair on the 15th of Oct at Etna Hall. The day was pleasant as an autumn day could be, with a good attendance from our own and the adjoining towns, and all united to make the day one of profit and pleasure. The Club have no permanent fair grounds, and Capt. Eli's Friend, President of the Society, gratuitously furnished his fields for the exhibition of stock, and the proprietors of Etna Hall, their large and commodious rooms for the exhibition of field crops, and vegetables, and the ladies' department. The exhibition of stock and horses was very good, that of farm products handsome, including fruit, while the ladies' department was filled with beauty and beautiful articles of their manufacture. The Committees report premiums as follows.

A singular instance of affection and intelligence in an animal has recently been brought to light in connection with the death of Dan'l Emd. Nickels late of Cherryfield. A cat to which the deceased had been very much attached, being observed to show signs of grief and to return home several mornings covered with mud, an examination of the grave was made, which revealed the fact that the cat had been at work there and had succeeded in reaching the box enclosing the coffin.—[Machias Union.

THE ASSURANCE OF PEACE.

The assurance which reaches us by telegraph of an honorable and peaceful adjustment of the threatening complications with Spain, will be received with the utmost satisfaction by all who deprecate unnecessary bloodshed, and who have the best interests of the country at heart. For several weeks the people of two nations have been incited by all sorts of inflammatory appeals to plunge into a sanguinary conflict, and too much credit cannot be accorded to the calm and dispassionate statesmanship which has been exhibited on both sides of the Atlantic, in seeking to arrive at an honorable adjustment and to avert the calamities of war. The Castelar Government has manifested a moral heroism in the face of appalling difficulties, that will entitle it to the highest admiration; and such a fitting sequel to the great achievement at Geneva, will contribute more to the enduring fame of President Grant's Administration than the most brilliant war of vengeance or conquest. Secretary Fish, to whose ability and discretion the world is largely indebted for the successful establishment of the great principle of international arbitration, and whose calmness and firmness in the midst of popular clamor have so greatly helped to a peaceful result in this later case, can afford to disregard the petty abuse which has followed him, and may safely leave the record of his Department to the verdict of posterity. It is also fitting that the admirable spirit evinced throughout by the Spanish Minister at Washington, should be generously recognized by our people, as it also entitles him to the respect and gratitude of his own countrymen.

Although we shall only learn the exact details of the adjustment through the Executive communications to Congress which assembles to-day, our despatches afford enough of evidently reliable information to show that the terms are just and honorable to both nations. Our Government has not made itself the champion of filibustering nor repudiated the principles which we invoked against Great Britain. The despatches received confirm the views we have hitherto expressed as to the course of procedure, and the only question now is as to the ability of the Castelar Government to enforce its decrees. The arbitrament of the question of reclamations will afford us full opportunity for presenting our indictment against Spain for innumerable abuses suffered by our citizens and our commerce in Cuba and to insist upon a thorough reform in the government of that Island.

The whole subject will at once be laid before Congress and we trust the members of that somewhat excitable body have by this time grown sufficiently cool to emulate the wise discretion of the Executive Department.

"BETTER TIMES."

(From the N. Y. Tribune.)

Business men come back from their Thanksgiving dinners with brighter hopes than they have dared indulge for months. Visably and palpably things are on the mend." For a long time after the panic had spent its force men stood still, distrustful of each other and afraid of the future. Now it is not only true that the financial outlook is better, but—what is far more important—that the business public are thoroughly convinced that it is better. The result may be seen in the evidences of rapid recuperation on all hands—in the advance in breadstuffs and cotton—in the steady export demand—in the absence of further reports of the stoppage of manufactories—in the reopening of some that have already made arrangements for the profitable renewal of work—in the solid position of the banks—the renewals of suspended houses—the appreciation even of railroad and telegraph securities and especially in the general conviction that, after all, there is no danger of "the bottom's dropping out."

Our Democratic contemporary is happy to accord high honor to the Administration for its management of the Spanish question, which it wishes us to understand has been in exact accordance with its editorial views. We are not yet fully advised as to the details of the negotiations, but have expressed confidence from the outset that our Government would calmly and judiciously maintain all our rights. It is our impression that the President has been somewhat less precipitate in his action, than was demanded by certain impulsive patriots; and there is an indistinct recollection that our neighbor said something, a week or two ago, about having a war ship in Santiago "within twenty four hours," to thunder from the muzzles of her guns a demand for instant surrender. The writer has evidently concluded that the President was wiser than some of his volunteer counsel, and we think so too.

Senator Boutwell, who has been lecturing in the leading cities of the Western States, writes to the editor of the Boston *Traveller* that the so-called "war fever" is imaginary. There has been a good deal of indignation about the Virginius affair, but the people are disposed to await the result of the negotiations.

THE PRESIDENT'S MESSAGE. As there will be no delay in the organization of Congress which meets to-day, the President's Message will probably be delivered and we hope to lay it before our readers to morrow morning.

The report of the Secretary of the Interior comprises, besides various other matters, the annual statistical reports of all railroads in which the Government is interested. The Secretary also refers to the Yellowstone National Park, urging Congress to take steps to protect that park from the vandalism of visitors, and says its boundaries should be properly surveyed and located, as many persons desire to settle upon public lands contiguous thereto.

The Boston *Advertiser*, in referring to the changes of Congress and to former members who will be missed, speaks of Hon. John A. Peters, as "one of the most popular men on the floor, both for his good nature and his decided opinions."

The expectation at the Treasury is that the increase in the public debt this month will not vary much from ten millions. Aside from the unusual expenses of the Navy Department and the decrease of the revenues the drafts for the quarterly pensions have fallen due within the present month.

At the meeting of the New York Chamber of Commerce, Friday, after a long debate the majority report of the Committee on Specie Payments, which calls upon the Government to redeem its pledges and resume specie payments, was voted down. The meeting then adjourned until next Tuesday without taking a vote on the minority report, which recommends that the National banks of New York city shall have power to establish a uniform rate of discounts, and that Congress shall authorize the issue of $1[illegible] in United States currency bonds convertible into legal tenders.

Senator Howe of Wisconsin, authorizes the statement that he is not a candidate for the Chief Justiceship, and would not accept the office even if appointed.

DEATH OF EX-SENATOR YATES. The Hon. Richard Yates of Illinois, ex-United States Senator, died in St. Louis on Thursday night. Mr. Yates was born in Kentucky, January 18, 1818. He removed to Illinois, graduated at the Illinois College, and afterward studied law. He served in the Legislature of Illinois several terms and was a Representative in Congress from Illinois from 1851 to 1855. He was elected Governor of Illinois in 1861 for a term of four years, and took an active part in raising troops for the Union army during the rebellion. He was elected United States Senator from Illinois for the term beginning in 1865 and ending in 1871, and served on the Committees on the District of Columbia, the Pacific Railroad, Territories, Pensions, Manufactures, and Mines and Mining. He also served as chairman of the Committees on Revolutionary Claims and Territories. He was a delegate to the "Loyalists' Convention," held in Philadelphia in 1866. Mr. Yates died at Barnum's Hotel in St. Louis. He had been to Fulton, Ark., as United States Commissioner, to examine the lower end of the Cairo and Fulton Railroad, and returned to St. Louis last Sunday. He was then quite feeble, and on Wednesday was very sick. On Thursday he seemed to be much better, and while busying himself with preparations for starting home on the following morning, suddenly fell backward and died in five minutes. Mr. Yates was a man of brilliant talents and commanding presence; but the later years of his life were marred and his influence impaired by his intemperate habits.

THE SPRAGUE TRUST DEED SIGNED. On Friday afternoon the mortgage deed in trust of the Spragues' property was perfected to the satisfaction of the trustees and to the committee of the creditors. In two hours afterward the deed was signed and executed by the Spragues and others interested. Nothing remains now but its acceptance by the trustees, and when that is done, which was expected Saturday, the instrument becomes binding upon all concerned. The lawyers intrusted with the drawing of the deed have worked hard over it, and it is thought to be complete in every way. As soon as the deed is put in force and the trustees take possession of the Sprague estate, the great work of settling affairs will commence and continue until all of the embarrassments are removed. The trustees have the entire confidence of the creditors and will no doubt do everything in their power to adjust the business complications.

A TEXAS YARN. An Austin, Texas, despatch has the improbable statement that the President telegraphed the Governor asking him to forward at once the names of thirty Colonels to raise and command thirty regiments from Texas for service in Cuba. The arms and ammunition in the State arsenal are being repaired and put in good condition, and the quota of arms due from the U. S. Government, not including Gatling guns, are now on their way to Texas.

REVENUE AND MARINE. The report of the Chief of Revenue and Marine shows that during the last fiscal year there were nine wrecks in the Cape Cod district, and ten in the Rhode Island and Long Island district. The total number of lives endangered on wrecks during the year was 235, the number lost, 234. The amount of property hazarded was $832,230, amount saved, $581,201.

The report gives the aggregate tonnage of the country as 4,406,046 and 31,684 vessels, a net increase over that at the close of the preceding fiscal year of 318,013 tons or 7½ per cent, and 1636 vessels or 6½ per cent.

ENGLISH ENGINES. The chief engineer of the Tigress has submitted a report to the Navy Department in regard to the working of the English compound engines with which the ship was provided. Their construction was found to be very inferior, and the ship was obliged to stop for repairs often while at sea. To sum up, the engineer writes that the engines appear to have been designed by a tailor and built by a shoemaker.

The public should not be unduly depressed by the misfortune that has befallen one of our monitors at sea, as the Manhattan was always regarded as an unlucky vessel, having repeatedly sprung aleak badly during the war. Others of the same class safely rode out heavy gales during months of blockading on our coast.

A TERRIBLE WAR-ENGINE. Experiments were made on Friday at Nut Island, Boston Harbor, with two monster guns weighing twenty-one tons, and of 15-inch calibre, one smooth bored and the other rifled according to the patent of Mr. Norman Wiard. Two targets, exactly alike, consisting of fifteen inches of iron in five three-inch plates firmly bolted together, backed against a solid gravel bank, were placed 150 feet from the guns, and each gun was charged with 150 pounds of mammoth powder. The conical shot of the rifled gun, weighing 460 lbs crashed through the fifteen inches of iron, nearly demolishing the target and penetrated twelve feet into the solid ground, which was frozen hard for some feet. The round shot of the same weight from the smooth bore, penetrated only three plates or 9 inches of the target and was then crushed and stopped. The experiment was considered a wonderful success, the best result hitherto achieved being at Woolwich, Eng., when a 35 ton gun with 100 lbs of powder sent a 600 lb. shot through a twelve inch iron target. The iron used is the same as that employed in plating armored vessels and the 15-inch guns on our monitors can all be rifled according to the Wiard plan.

PULLMAN CARS. Some of the leading railroads are finding that the Pullman palace cars are so managed as to bring a minimum of revenue to them. Thus one passenger, paying only a single fare, may engage the whole of one of these cars. The Pullman Co naturally encourage passengers to take two or more berths, and it so happens that the railroads get not nearly so much revenue for drawing one of these palace cars, weighing 50 tons, over their tracks, as they get from the ordinary passenger cars, which are much lighter. The Union Pacific railroad has notified the Pullman Co. that hereafter a full railway ticket must be purchased for every sleeping-berth sold. Of course there are comparatively few passengers who will take for themselves full sections in the sleeping cars, if in addition to the charges of the Pullman Co double or quadruple railway fares must be paid.

THE CREDIT MOBILIER SUITS. The important Credit Mobilier suit, which was tried in Hartford, Ct., last October, has been decided by United States Judges Hunt and Shipman, and the opinion was filed in the United States District Court in that city Friday. The motion of the defendant's counsel to dismiss the bill involving the question of jurisdiction was decided in favor of the Government. On the second point, the demurrer, the court sustained the demurrer and dismisses the bill as to the parties who demurred. The ground of the demurrer is that the damage to the Government by the Credit Mobilier frauds is too remote to be reached by the process pursued or by any other, and that the Government has at present no peculiary interest to be reached by the bill. The court takes the view that there is no trust anywhere raised in behalf of the Government to be protected. The motion is to dissolve the injunction granted. It is not unlikely that the matter may go to the Supreme Court, though there is not much probability of a reversal.

Of sixteen hotels inspected in New York last week, only six were found with sufficient means of egress in case of fire. In the twelve theatres the reverse was the fact, there being no violation of the regulations.

THE SPANISH QUESTION

...The questions between Spain and the United States are freely discussed in Congressional, Army and Navy circles. The only fear expressed is that the Castelar Cabinet will not be able to enforce its agreement.

SPEAKER BLAINE

...is still occupied in forming the Standing Committees. He declines to receive numerous callers. Much anxiety is expressed by members on the subject especially among those who aspire to chairmanships.

THE HOUSE CAUCUS—SPEAKER BLAINE NOMINATED BY ACCLAMATION

The Republican Caucus to-night was presided over by Representative Maynard of Tennessee of New York nominated John A. Logan for Speaker, which was carried by acclamation. Mr Orth nominated for Clerk ... and McPherson, who was chosen, receiving 117 votes and his opponent, Hinman, of Illinois 49. Col. Markland, the prominent candidate in opposition to N. G. Ordway, for Sergeant-at-Arms, withdrew in his favor. He was unanimously supported by the entire Indiana delegation. O B Buxton was nominated for Door keeper, the name of his opponent, Scranton, being withdrawn before the ballot was announced. All the officers named in caucus occupied the places for which they were to-night nominated during the former Congress. Henry Sherwood of Michigan was nominated for Postmaster; Kingsbury, present ... incumbent, was nominated for Chaplain.

General Coburn of Indiana offered a resolution proposing in effect to divide the Committee on Appropriations into three or more Committees, combining with their duties those now pertaining to the several committees on expenditure of the various Departments. He showed the appropriations of such arrangement and the advantage it would be to dispatch public business; but as many believe this subject not a proper one for ... caucus deliberation, an adjournment took place without acting on the proposition.

THE DEMOCRATIC CAUCUS.

The Democratic members of the House held a Caucus in the Judiciary Committee room for the purpose of nominating candidates for officers of the House, Wm. E. Niblack President. The following nominations for Speaker were made: Fernando Wood and S S Cox of New York and J C Robinson of Illinois. On the first ballot Wood received 30, Cox 20, Robinson 19, A H Stephens of Georgia 1 and Lamar of Mississippi 2. On the 2d ballot Wood received 44, Cox 22, Lamar 1, Robinson 1, Stephens 1 and Niblack 1. Wood having received a majority, was declared candidate for Speaker. The other officers nominated are as follows: For Clerk Geo C. Weddurburn of Virginia; for Sergeant at Arms Peter Rupp of Wisconsin; for Door keeper Charles W Coombs of Maine; for Chaplain Rev R H. Mahon of Kentucky.

ASSURANCE, OF PEACE—SPAIN ACCEDES TO OUR DEMANDS.

NEW YORK, Nov 29 All the Washington morning papers unanimous in asserting that Spain has acceded to our demands, and peace is ensured.

The Times' despatch says that this announcement was received through Admiral Polo last evening, after the adjournment of the Cabinet meeting. Spain promises to deliver up the Virginius, the flag, and papers to restore the survivors and to bring to punishment the guilty; but here.

SECRETARY FISH CONGRATULATED.

The Herald's despatch dated, at 2.15 this morning says that Secretary Fish was in high spirits at his dwelling where warm congratulations were passed during the evening. School bands visited, respectively, rendering that he was very glad that war had been averted.

Secretaries Robeson and Belknap congratulated each other. Gen Sherman expressed great satisfaction at the happy termination of the negotiations.

Secretary Fish has no doubt that the Spanish Government will be able to carry out its orders in Cuba. The Colonial Minister, M. Soler, now in Havana, will peradnay see that they are executed.

NEWSPAPER COMMENTS

The World's despatch says that situation is peace. It gives among the conditions acceded to by Spain indemnity to the families of such American citizens as were executed at Santiago.

The Tribune's despatch says the main question may be regarded as settled, and as the Government had to do is to wait the enforcement of the concessions.

TRIBUTE TO ADMIRAL POLO

A double leaded editorial in the Times treats of peace as a foregone conclusion and praises what it calls the good temper and tact of Admiral Polo and Secretary Fish in having effected it. It adds "There can be no impropriety in mentioning that Admiral Polo has endeavored by all honorable means to bring about a peaceful solution without forgetting for a moment the honor of his own country."

HONOR TO WHOM IT IS DUE.

The Tribune also editorially treats the peace as having been secured and adds "We must not delay our congratulations to the Administration which has deserved well of the country, or our thanks to Castelar."

FROM MADRID—THE VESSEL AND PERSONS TO BE GIVEN UP—THE LEGAL QUESTIONS REFERRED TO A MIXED TRIBUNAL.

MADRID, Nov. 29. The Spanish Cabinet has agreed to deliver to the Unit d States Government the steamship Virginius, and all the persons remaining alive, who were captured with her, leaving the question, whether the seizure of the vessel was legal to be settled by a Mixed Tribunal. The question whether damages shall be paid to the families or relatives of the prisoners who were shot is to be settled in a similar manner.

REPARATION SUPPORTED IN EUROPE.

This decision was not arrived at by the Government before it had confidentially consulted with the powers of Europe and was informed by all of them that reparation was due for the capture of the steamer and the execution of captives.

The decision is also in conformity with the opinions of the leading Spanish statesmen of all parties to whom the question was submitted by the Government.

OFFICIAL CONFIRMATION

WASHINGTON, Nov 29. Official confirmation received by the Department of State this morning confirmed the Madrid despatch dated to day relative to the agreement of the Spanish Government to deliver the Virginius, with the addition of the flag is to be saluted.

PREPARING TO BACK UP DIPLOMACY.

NEW YORK, Nov 29 A Navy Yard despatch says that orders to the Ordnance Department, and to the principal cities of stores are being hurried forward. Large numbers of men have been employed night and day getting the Spanish guns ready for sea.

A Key West despatch says that a new machine shop is being established there. The schooner Liberty from New Orleans for Havana stopped there, for [illegible] Havana without ascertaining [illegible] had been declared extinct.

It is reported that the Navy Department were in negotiations yesterday with the Pacific Mail Steamship Company for the purchase of all their vessels.

A Washington special says the Navy Department has been tendered [illegible] vessels of various kinds since the [illegible] began, but has not purchased any.

THE MONITOR MANHATTAN IN A GALE—OBLIGED TO PUT IN FOR REPAIRS.

A Lewes, Delaware, special says that during the storm which the monitor Manhattan encountered on Thursday the sea swept clear over her from stem to stern, upsetting the man at the wheel, and a leak was sprung under the turret through which the water poured in rapidly. Commander Yates ordered the monitor would go down and orders were given to be cleared and the life buoys distributed. Subsequently the storm moderated easter, but being in a sinking condition, her bilge pumps having become clogged and everything and everybody drenched through. It was decided best to return to the Delaware breakwater; and are going to Key West. The Manhattan will probably be ordered to Philadelphia for repairs.

NO CHANGE AT BROOKLYN NAVY YARD.

Notwithstanding the report of the settlement of the difficulties with Spain no orders have been received at the Brooklyn Navy Yard for the cessation of work and to-day work on the various vessels is being pushed forward as usual.

LATER FROM WASHINGTON—THE TERMS OF THE AGREEMENT SIGNED.

WASHINGTON, Nov. 29 The negotiations between the United States and Spain with regard to the questions growing out of the capture of the Virginius were brought to a conclusion to-day, Secretary Fish and Admiral Polo having agreed upon and signed a Protocol which the latter soon after telegraphed to his Government. As conflicting statements have appeared in the newspapers regarding the intelligence received last night and also to-day, it can now be positively stated that the terms are substantially as follows.

First, The immediate delivery to the United States of the ship Virginius and all the surviving passengers and crew.

Second, A salute to our flag on the 25th of December next, unless in the meantime Spain shall satisfy the United States that the American flag was improperly borne on that vessel, and that further that she had no right to the American flag or American papers. In this event the salute is to be spontaneously withdrawn and Spain is to forcibly disclaim any intentional indignity to the flag in the acts committed by Spain against the Virginius.

Third, If it shall thus be shown that the Virginius had no right to carry the American flag and papers, the United States will take immediate proceedings against the vessel and surviving parties who have violated the laws of the United States, and Spain guarantees to facilitate proceedings against any of her authorities who may have violated either law or treaty stipulations.

Fourth, The matter of reclamations for damages is reserved for future consideration.

In addition to the above it can also be stated positively that within the next two days Secretary Fish and the Spanish Minister will determine the port at which the Virginius and the surviving passengers and crew shall be delivered to the United States. The words "immediate release" as applicable to the delivery of the Virginius and surviving passengers and crew implies, of course, a reasonable time for its execution, as some days must elapse before Havana and Santiago can be reached.

HONORABLE TO BOTH COUNTRIES

The agreement is regarded in official circles as covering all the points of our original demands, though in a modified form, while it is considered respectful and honorable to both countries.

The hoisting of December 25th as the time for saluting our flag, is to allow the necessary opportunity to Spain to show that the Virginius improperly carried the American flag and American papers.

CONGRATULATIONS

The [illegible] that all quarters that the negotiation has thus peacefully resulted. Both Secretary Fish and Admiral Polo have for two weeks past been engaged in producing this result on which they receive the congratulations of their respective friends.

CASTELAR TO BURRIEL

NEW YORK, Nov 29 At a meeting of the Cuban Junta to-night, a member read from the office of Madrid organ of the 9th inst, the orders of Castelar as sent to Burriel, calling upon him to desist from further executions of the Virginius party and expressing at the same time his opinion that brutal outrages would result in Spain losing "the beautiful Island of Cuba."

THE CORRESPONDENCE

asked from Washington says that copies of all the correspondence on file or on record in the State Department in relation to matters of controversy with Spain, now being made for the Senate and House, to be sent in on the first call for information from friend or foe of the Administration. The documents to be furnished cover the whole field from the outbreak of the insurrection to the last and greatest outrage. Mr Fish is of opinion that the correspondence will form

A BOOK IN JUDGMENT AGAINST SPAIN

for consideration of whatever arbitrators may be called on to settle the questions of indemnity for the several murders of the Virginius and her crew, and for all minor questions of treaty obligations, in connection with private property on the part of the Spanish Government and its officers with the striking contrast of forbearance and strict observance of law and obligation on our part.

NEWS OF THE SETTLEMENT IN HAVANA.

HAVANA, 29. The news of the settlement of the Virginius question between Spain and the United States and the terms on which it is based, was received here with much excitement, but perfect order prevails among the people and no disturbances.

THE CUBAN AUTHORITIES WANT THE TRUTH TO PROVE THE CAPTIVE AND EXECUTIONS JUST

The chief authorities of the Island assembled in conference, have sent a manifesto to the Spanish Government asking it to wait until it shall have received a protocol about the Virginius case, which shows the right of the Captain and the justice of the subsequent proceedings.

THE MASS OF PEOPLE OPPOSED TO THE SURRENDER

The mass of people oppose the surrender of the Virginius only yielding to pressure which only disclosed the Spanish feeling.

THE TONE OF THE PRESS

is in accord with the popular feeling. Extraordinary means and resources are being created to resist any aggression, although thinking men, we do not expect it knowing the prudence of the American Government.

SERIOUS FIRE.

BELLEVILLE, Ont., Nov. 29. The building occupied by Geo. W. Walton as a sash and planing factory; Louis Roogwich, cabinet maker; W Blackburn, cabinet maker; and W Powell, carriage maker; were last night destroyed by fire, throwing about forty men out of employment. Loss $20,000.

THE POISONING CASE.

MONTREAL, Nov. 29. Four additional victims have been added to the accidental poisoning case. Five are still in a precarious condition. It seems that the man Flaherty seeing a sleigh standing in the street without a driver stole therefrom a bottle containing what he supposed to be sherry, but which proved to be wine of Colchicum. This he shared with the inmates of the tenement in which he lived and some neighbors with the fatal results mentioned.

LIFE LEAVES.

BY JOAQUIN MILLER.

Is it worth while that we jostle a brother
Bearing his load on the rough road of life?
Is it worth while that we jeer at each other,
In blackness of heart?—that we war to the knife?
God pity us all in our pitiful strife!

God pity us all as we jostle each other!
God pardon us all for the triumphs we feel
When a fellow goes down 'neath his load on the heather,
Pierced to the heart—words are keener than steel,
And mightier far for woe or for weal.

Were it not well in this brief little journey
On over the isthmus, down into the tide,
We give him a fish instead of a serpent,
Ere folding the hands to be and abide
Forever and aye in dust at his side?

Look at the roses saluting each other;
Look at the herds all at peace on the plain—
Man, and man only, makes war on his brother,
And laughs in his heart at his peril and pain,
Shamed by the beasts that go down on the plain.

Is it worth while that we battle to humble
Some poor fellow-soldier down into the dust?
God pity us all! Time oft soon will tumble
All of us together like leaves in a gust,
Humbled indeed down into the dust.

Prospectus for 1874.

Seventh Year.

The Aldine,

An Illustrated Monthly Journal, universally admitted to be the Handsomest Periodical in the World. A Representative and Champion of American Taste.

Not for Sale in Book or News Stores

THE ALDINE while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light and graceful literature, and a collection of pictures, the rarest specimens of artistic skill, in black and white. [illegible]

ART DEPARTMENT, 1874.

The illustrations of THE ALDINE have won a world-wide reputation, and in the art centres of Europe it is an admitted fact that its wood cuts are examples of the highest perfection ever attained. [illegible]

To fully realize the wonderful work which THE ALDINE is doing for the cause of art culture in America, it is only necessary to consider the cost to the people of any other decent representations of the productions of great painters.

In addition to designs by the members of the National Academy, and other noted American artists, THE ALDINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success and greatest general interest. Thus the subscriber to THE ALDINE will, at a trifling cost, enjoy in his own home the pleasures and refining influences of true art.

The quarterly tinted plates for 1874 will be by Thomas Moran and J. D. Woodward.

The Christmas issue for 1874 will contain special designs appropriate to the season, by our best artists and will surpass in attractions any of its predecessors.

PREMIUM FOR 1874.

Every subscriber to THE ALDINE for the year 1874 will receive a pair of chromos. The original pictures were painted in oil for the publishers of THE ALDINE, by Thomas Moran, whose great Colorado picture was purchased by Congress for ten thousand dollars. The subjects were chosen to represent "The East" and "The West." One is a view in the White Mountains, New Hampshire; the other gives The Cliffs of Green River, Wyoming Territory. The difference in the nature of the scenes themselves is a pleasing contrast and affords a good display of the artist's scope and coloring. The chromos are each worked from thirty distinct plates, and are in size (12x16) and appearance exact fac-similes of the originals. The presentation of a worthy example of America's greatest landscape painter to the subscribers of THE ALDINE was a bold but peculiarly happy idea, and its successful realization is attested by the following testimonial, over the signature of Mr. Moran himself:

NEWARK, N. J., Sept. 20th, 1873.

MESSRS. JAMES SUTTON & CO.

Gentlemen,—I am delighted with the proofs in color of your chromos. They are wonderfully successful representations by mechanical process of the original paintings.

Very respectfully,
(Signed) THOS. MORAN

These chromos are in every sense American. They are by an original American process, with material of American manufacture, from designs of American scenery by an American painter, and presented to subscribers to the first successful American Art Journal. If no better because of all this, they will certainly possess an interest no foreign production can inspire, and neither are they any the worse if by reason of peculiar facilities of production they cost the publishers only a trifle, while equal in every respect to other chromos that are sold singly for double the subscription price of THE ALDINE. Persons of taste will prize these pictures for themselves—not for the price they did or did not cost, and will appreciate the enterprise that renders their distribution possible.

If any subscriber should indicate a preference for a figure subject, the publishers will send "Thoughts of Home," a new and beautiful chromo, 14x20 inches, representing a little Italian exile whose speaking eyes betray the longings of his heart.

TERMS.

$5 per annum, in advance, with Oil Chromos free!

For 50 cents extra, the chromos will be sent mounted, varnished, and prepaid by mail

THE ALDINE will, hereafter, be obtained only by subscription. There will be no reduced or club rates; cash for subscriptions must be sent to the publishers direct, or handed to the local canvasser, without responsibility to the publishers, except in cases where the certificate is given, bearing the fac simile signature of JAMES SUTTON & CO.

LAWS OF THE UNITED STATES.

Passed at the Third Session of the Forty-second Congress.

Convention between the United States of America and Denmark. Naturalization. Concluded July 20, 1872. Ratified January 22, 1873; Ratifications exchanged March 14, 1873; Proclaimed April 15, 1873.

By the President of the United States of America.

A PROCLAMATION.

Whereas a convention between the United States of America and His Majesty the King of Denmark, relative to the naturalization of citizens and subjects of the two countries, was concluded and signed at Copenhagen by their respective plenipotentiaries on the twentieth day of July, 1872, the original of which convention, being in the English and Danish languages, is word for word as follows.

The United States of America and His Majesty the King of Denmark being desirous to regulate the citizenship of the citizens of the United States of America who have emigrated, or who may emigrate, from the United States of America to the Kingdom of Denmark, and of Danish subjects who have emigrated or who may emigrate, from the Kingdom of Denmark to the United States of America, have resolved to conclude a convention for that purpose and have named as their plenipotentiaries, that is to say, the President of the United States of America, Michael J. Cramer, minister resident of the United States of America at Copenhagen, and His Majesty the King of Denmark, Otto Ditlev Baron Rosenorn-Lehn, commander of Danebrog and Danebrogsmand, chamberlain, His Majesty's minister for foreign affairs, &c., &c., &c.,

Who after having communicated to each other their respective full powers found to be in good and due form, having agreed upon and concluded the following articles, to wit:

ARTICLE I

Citizens of the United States of America who have become, or shall become, and are, naturalized, according to law within the Kingdom of Denmark as Danish subjects, shall be held by the United States of America to be in all respects and for all purposes Danish subjects, and shall be treated as such by the United States of America.

In like manner, Danish subjects who have become or shall become, and are naturalized, according to law, within the United States of America as citizens thereof, shall be held by the Kingdom of Denmark to be in all respects and for all purposes as citizens of the United States of America, and shall be treated as such by the Kingdom of Denmark.

ARTICLE II

If any such citizen of the United States, as aforesaid, naturalized within the Kingdom of Denmark as a Danish subject, should renew his residence in the United States, the United States government may, on his application, and on such conditions as that government may see fit to impose, readmit him to the character and privileges of a citizen of the United States, and the Danish government shall not, in that case, claim him as a Danish subject on account of his former naturalization.

In like manner, if any such Danish subject, as aforesaid, naturalized within the United States as a citizen thereof should renew his residence within the Kingdom of Denmark, His Majesty's government may, on his application and on such conditions as that government may think fit to impose, readmit him to the character and privileges of a Danish subject, and the United States government shall not, in that case, claim him as a citizen of the United States on account of his former naturalization.

ARTICLE III.

If however, a citizen of the United States, naturalized in Denmark shall renew his residence in the former country without the intent to return to that in which he was naturalized, he shall be held to have renounced his naturalization.

In like manner, if a Dane, naturalized in the United States shall renew his residence in Denmark without the intent to return to the former country, he shall be held to have renounced his naturalization in the United States.

The intent not to return may be held to exist when a person naturalized in the one country shall reside more than two years in the other country.

ARTICLE IV.

The present convention shall go into effect immediately on or after the exchange of the ratifications and shall continue in force for ten years. If neither party shall have given to the other six months previous notice of its intention then to terminate the same, it shall further remain in force until the end of twelve months after either of the contracting parties shall have given notice to the other of such intention.

ARTICLE V.

The present convention shall be ratified by the President of the United States of America, by and with the advice and consent of the Senate thereof, and by His Majesty the King of Denmark and the ratifications shall be exchanged at Copenhagen as soon as may be, within eight months from the date hereof.

In witness whereof the respective plenipotentiaries have signed the same, and have affixed thereto their respective seals.

Done at Copenhagen, the twentieth day of July, in the year of our Lord one thousand eight hundred and seventy two.

MICHAEL J. CRAMER.
O. D. ROSENORN-LEHN.

And whereas the said convention has been duly ratified on both parts, and the respective ratifications were exchanged at Copenhagen, on the 14th day of March 1873, by Michael J. Cramer, minister resident of the United States of America at Copenhagen, and Otto Ditlev Rosenorn Lehn, Commander of Danebrog and Danebrogsmand, chamberlain, His Majesty's minister for foreign affairs, &c., &c., &c., on the part of their respective governments.

Now, therefore, be it known that I, Ulysses S. Grant, President of the United States of America, have caused the said convention to be made public, to the end that the same, and every clause and article thereof, may be observed and fulfilled with good faith by the United States and citizens thereof.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington, this fifteenth day of April in the year of our Lord one thousand eight hundred and seventy-three, and of the Independence of the United States of America the ninety seventh.

U. S. GRANT.

Approved, March, 3, 1873.

By the President of the United States of America

A PROCLAMATION.

Whereas objects of interest to the United States require that the Senate should be convened at twelve o'clock on the fourth of March next, to receive and act upon such communication as may be made to it on the part of the Executive

Now, therefore, I, Ulysses S. Grant, President of the United States, have considered it to be my duty to issue this proclamation, declaring that an extraordinary occasion requires the Senate of the United States to convene for the transaction of business at the Capitol, in the city of Washington, on the fourth day of March next, at twelve o'clock at noon on that day, of which all who shall at that time be entitled to act as members of that body are hereby required to take notice.

Given under my hand and the seal of the United States, at Washington, the twenty-first day of February in the year of our Lord one thousand eight hundred and seventy-three, and of the Independence of the United States of America the ninety-seventh.

TREATY.

Agreement between the United States and Spain for the settlement of certain Claims of Citizens of the United States, made by Daniel E. Sickles, Esq., Envoy Extraordinary and Minister Plenipotentiary of the United States at Madrid, and His Excellency Senor Don Cristino Martos, Minister of State of Spain. Concluded February 12, 1871.

Memorandum of an arbitration for the settlement of the claims of citizens of the United States or of their heirs against the government of Spain for wrongs and injuries committed against their persons and property, or against the persons and property of citizens of whom the said heirs are the legal representatives, by the authorities of Spain, in the island of Cuba, or within the maritime jurisdiction thereof since the commencement of the present insurrection.

1. It is agreed that all such claims shall be submitted to arbitrators, one to be appointed by the Secretary of State of the United States, another by the Envoy Extraordinary and Minister Plenipotentiary of Spain at Washington, and these two to name an umpire who shall decide all questions upon which they shall be unable to agree, and in case the place of either arbitrator or of the umpire shall from any cause become vacant, such vacancy shall be filled forthwith in the manner here provided for the original appointment.

2. The arbitrators and umpire so named shall meet at Washington within one month from the date of this agreement, and shall, before proceeding to business, make and subscribe a solemn declaration that they will impartially hear and determine, to the best of their judgment and according to public law and the treaties in force between the two countries and these present stipulations, all such claims as shall, in conformity with this agreement, be laid before them on the part of the government of the United States, and such declaration shall be entered upon the record of their proceedings.

3. Each government may name an advocate to appear before the arbitrators or the umpire to represent the interests of the parties respectively.

4. The arbitrators shall have full power, subject to these stipulations, and it shall be their duty, before proceeding with the hearing and decision of any case, to make and publish convenient rules prescribing the time and manner of the presentation of claims and of the proof thereof, and any disagreement with reference to the said rules of proceeding shall be decided by the umpire. It is understood that a reasonable period shall be allowed for the presentation of the proofs. All claims, and the testimony in favor of them shall be presented only through the government of the United States, and the award made in each case shall be in writing, and if indemnity be given, the sum to be paid shall be expressed in the gold coin of the United States.

5. The arbitrators shall have jurisdiction of all claims presented to them by the government of the United States for injuries done to citizens of the United States by the authorities of Spain in Cuba since the first day of October, 1868. Adjudications of the tribunals in Cuba concerning citizens of the United States, made in the absence of the parties interested, or in violation of international law or the guarantees and forms provided for in the treaty of October 27, 1795, between the United States and Spain, may be reviewed by the arbitrators, who shall make such award in any such case as they shall deem just. No judgment of a Spanish tribunal disallowing the affirmation of a party that he is a citizen of the United States shall prevent the arbitrators from hearing a reclamation presented in behalf of said party by the United States government; nevertheless in any case heard by the arbitrators the Spanish Government may traverse the allegation of American citizenship, and thereupon competent and sufficient proof thereof will be required. The commission having recognized the quality of American citizens in the claimants, they will acquire the rights accorded to them by the present stipulations as such citizens. And it is further agreed that the arbitrators shall not have jurisdiction of any reclamation made in behalf of a native born Spanish subject, naturalized in the United States, if it shall appear that the same subject matter having been adjudicated by a competent tribunal in Cuba, and the claimant, having appeared therein either in person or by his duly appointed attorney and being required by the laws of Spain to make a declaration of his nationality, failed to declare that he was a citizen of the United States, in such case, and for the purposes of this arbitration it shall be deemed and taken that the claimant by his own default, has renounced his allegiance to the United States. And it is further agreed that the arbitrators shall not have jurisdiction of any demand growing out of contracts.

6. The expenses of the arbitration will be defrayed by a percentage to be added to the amount awarded. The compensation of the arbitrators and umpire shall not exceed three thousand dollars each, the same allowance shall be made to each of the two advocates representing respectively the two governments, and the arbitrators may employ a secretary at a compensation not exceeding the five dollars a day for every day actually and necessarily given to the business of the arbitration.

[illegible] the awards made in the several cases submitted to the said arbitration as final and conclusive, and will give full effect to the same in good faith and as soon as possible.

SOMETHING NEW

IN

Wall Papers.

We would call the particular attention of the public to our latest and handsomest styles of Wall Paper, surpassing anything of the kind before offered in this market. We have recently papered one of the most elegant parlors of Custom House in the Reception Parlor connected with Dr. Babcock's Dental Rooms, and taking advantage of Dr. B.'s permission, would invite all who contemplate a purchase of this nature, to call at his rooms and examine them before selecting elsewhere.
